Dengue Awareness Programme Report

Event Date: October 8, 2021

Event Location: Zoology Laboratory, SVB. Government Degree College, Koilkuntla, Nandyala district.

Objectives:

The Dengue Awareness Programme held at SVB Government Degree College, Koilkuntla on October 8, 2021, had the following objectives:

Raise Awareness: To raise awareness among students, faculty, and staff about the causes, symptoms, transmission, and prevention of dengue fever.

Educate on Prevention: To educate participants about effective preventive measures to control the spread of dengue, such as eliminating mosquito breeding sites, using mosquito repellents, and maintaining proper sanitation.

Empower the Community: To empower participants with knowledge that enables them to take proactive steps in preventing dengue within the college campus and the broader community.

Promote Collaboration: To foster collaboration between healthcare professionals, educational institutions, and the community to combat dengue and other vector-borne diseases.

Procedure:

The Dengue Awareness Programme was meticulously organized to ensure its effectiveness and engagement of participants:

Inauguration: The event commenced with an inauguration ceremony led by the chief guest, Dr. K. Devika Rani, the esteemed principal of SVB Government Degree College.

Expert Talk by Dr. H. Ramasubba Reddy: Dr. Reddy delivered an insightful talk on various aspects of dengue, including its causes, symptoms, treatment, and prevention. His expertise provided attendees with accurate and updated information.

Interactive Session: Following the talk, an interactive session was conducted. Participants actively engaged in asking questions and clarifying doubts related to

dengue. Dr. Reddy provided detailed responses, enhancing participants' understanding.

Chief Guest Address: Dr. K. Devika Rani shared her perspective on the significance of such awareness programmes in an educational institution. She underscored the role of students in spreading knowledge within their families and communities.

Distribution of Informational Material: Brochures, pamphlets, and informational booklets were distributed among participants. These materials served as quick references for dengue prevention strategies.

Collaborative Approach: The event concluded with a discussion on collaborative efforts between healthcare professionals, educational institutions, and the community to collectively combat dengue.

Summary:

The Dengue Awareness Programme held at SVB Government Degree College, Koilkuntla, on October 8, 2021, was a collaborative effort aimed at educating and empowering participants about dengue prevention. With Dr. H. Ramasubba Reddy's expert insights and Dr. K. Devika Rani's valuable contributions, the event successfully achieved its objectives of raising awareness and promoting preventive measures. The interactive sessions, practical demonstrations, and distribution of informational material ensured that participants gained a comprehensive understanding of dengue-related issues. The event emphasized the importance of community engagement and collaboration in the fight against vector-borne diseases. As participants left equipped with knowledge and tools, the event's impact is likely to extend beyond the college campus, contributing to a healthier and more aware community.
